```
Java Script Day 6
2019년 3월 20일 수요일 오후 2:12
 «Lecture 17>>: 100p
- if , switch
-while. do-while
- for, for-in
 27*
  3 325
  3else Tf
   3 else ?
 + Switch
  Switch ( ) {
     case _:
              break;
        default:
 + while
  while (condition) {
  Contine > 나는 반복신행될 its skip
  break -> ZNEtz
```

```
* do - while
   : At least once will be executed.
3 while ( condition);
ex. Quiz program
6 It becomes Concise.
 +x+ Ctotene 05041?!
*for
 for (如: 元祖: 马生){
       =) Concise
 while?
      3(3775) sirdu
```

```
* for-in

i It is an iterative statement

that can access each element of the object.

( == 1,0 == 1)

for (var propertyName in obj) ?
```
